Services

[Site Selection Assistance](#)
[Existing Industry Services](#)
[Information and Research Support](#)
[Public Relations](#)
[Government-Business Liaison](#)

Site Selection Assistance

At the beginning of the site selection process, SEDA provides site information and custom economic and business information based on the request by the company.

Shoals projects enjoy the support of an assigned staff member whose task is to assure a company's project develops as quickly and smoothly as possible.

If company representatives choose to visit The Shoals, SEDA will structure an itinerary based on individual needs, including review of appropriate sites and/or buildings. SEDA can arrange meetings with legal, financial, and other support services and provide introductions to government and corporate leaders.

Existing Industry Services

Realizing the importance of existing industry, SEDA initiated an Existing Industry Program in the late 1980s. This program has become more important as the marketplace has changed to a global environment. SEDA has dedicated staff to address existing industries needs and concerns, including expansions.
