Site Selection

The Shoals area of North Alabama offers fully served industrial sites and quality available buildings for companies of all sizes.

For companies looking to locate within an established industrial park or on privately owned land, The Shoals has both small and large tracts available with key utility and transportation infrastructure already in place.

If an existing facility better suits your needs, there are available buildings throughout The Shoals that are well-suited for industrial, office, customer service, and/or warehouse/distribution operations.

Commitment to Growth

The Shoals is committed to economic growth. Whether the project is a new manufacturing facility, a customer service center, or a new hotel, the area's elected officials and community leaders are pro-business and give their full support to such projects. Likewise, the Shoals Economic Development Authority (SEDA), a professional organization with many years of experience in economic development projects, will provide the service needed for a successful site location in The Shoals.

We would enjoy the opportunity to assist you with your site selection. Please contact us:
